Legacy Furniture
Re-use

0845 833 6530 | renovo-services.com

Renovo specialises in furniture reuse, workplace moves, and changes. It offers a suite of consulting, audit, and logistics services to create, manage, and implement a client's...

Reuse Strategy.

Working with designers in the early stages of the workplace design process we incorporate existing assets from the building providing a sustainable solution.

We show how a client can realise the...

Power of Reuse.

- Achieve 80-100% furniture reuse
- Potential cost savings
- Achieve Scope 3 carbon emission avoidance
- Make a huge social impact in the local community for ESG
- The Big Win: The client receives a Carbon and ESG Report showing key metrics evidencing full traceability of their legacy furniture to share with investors and stakeholders

Why?

Furniture reuse is your responsibility for Net Zero by 2050

You have *control* ie: Buildings / transport emission reduction

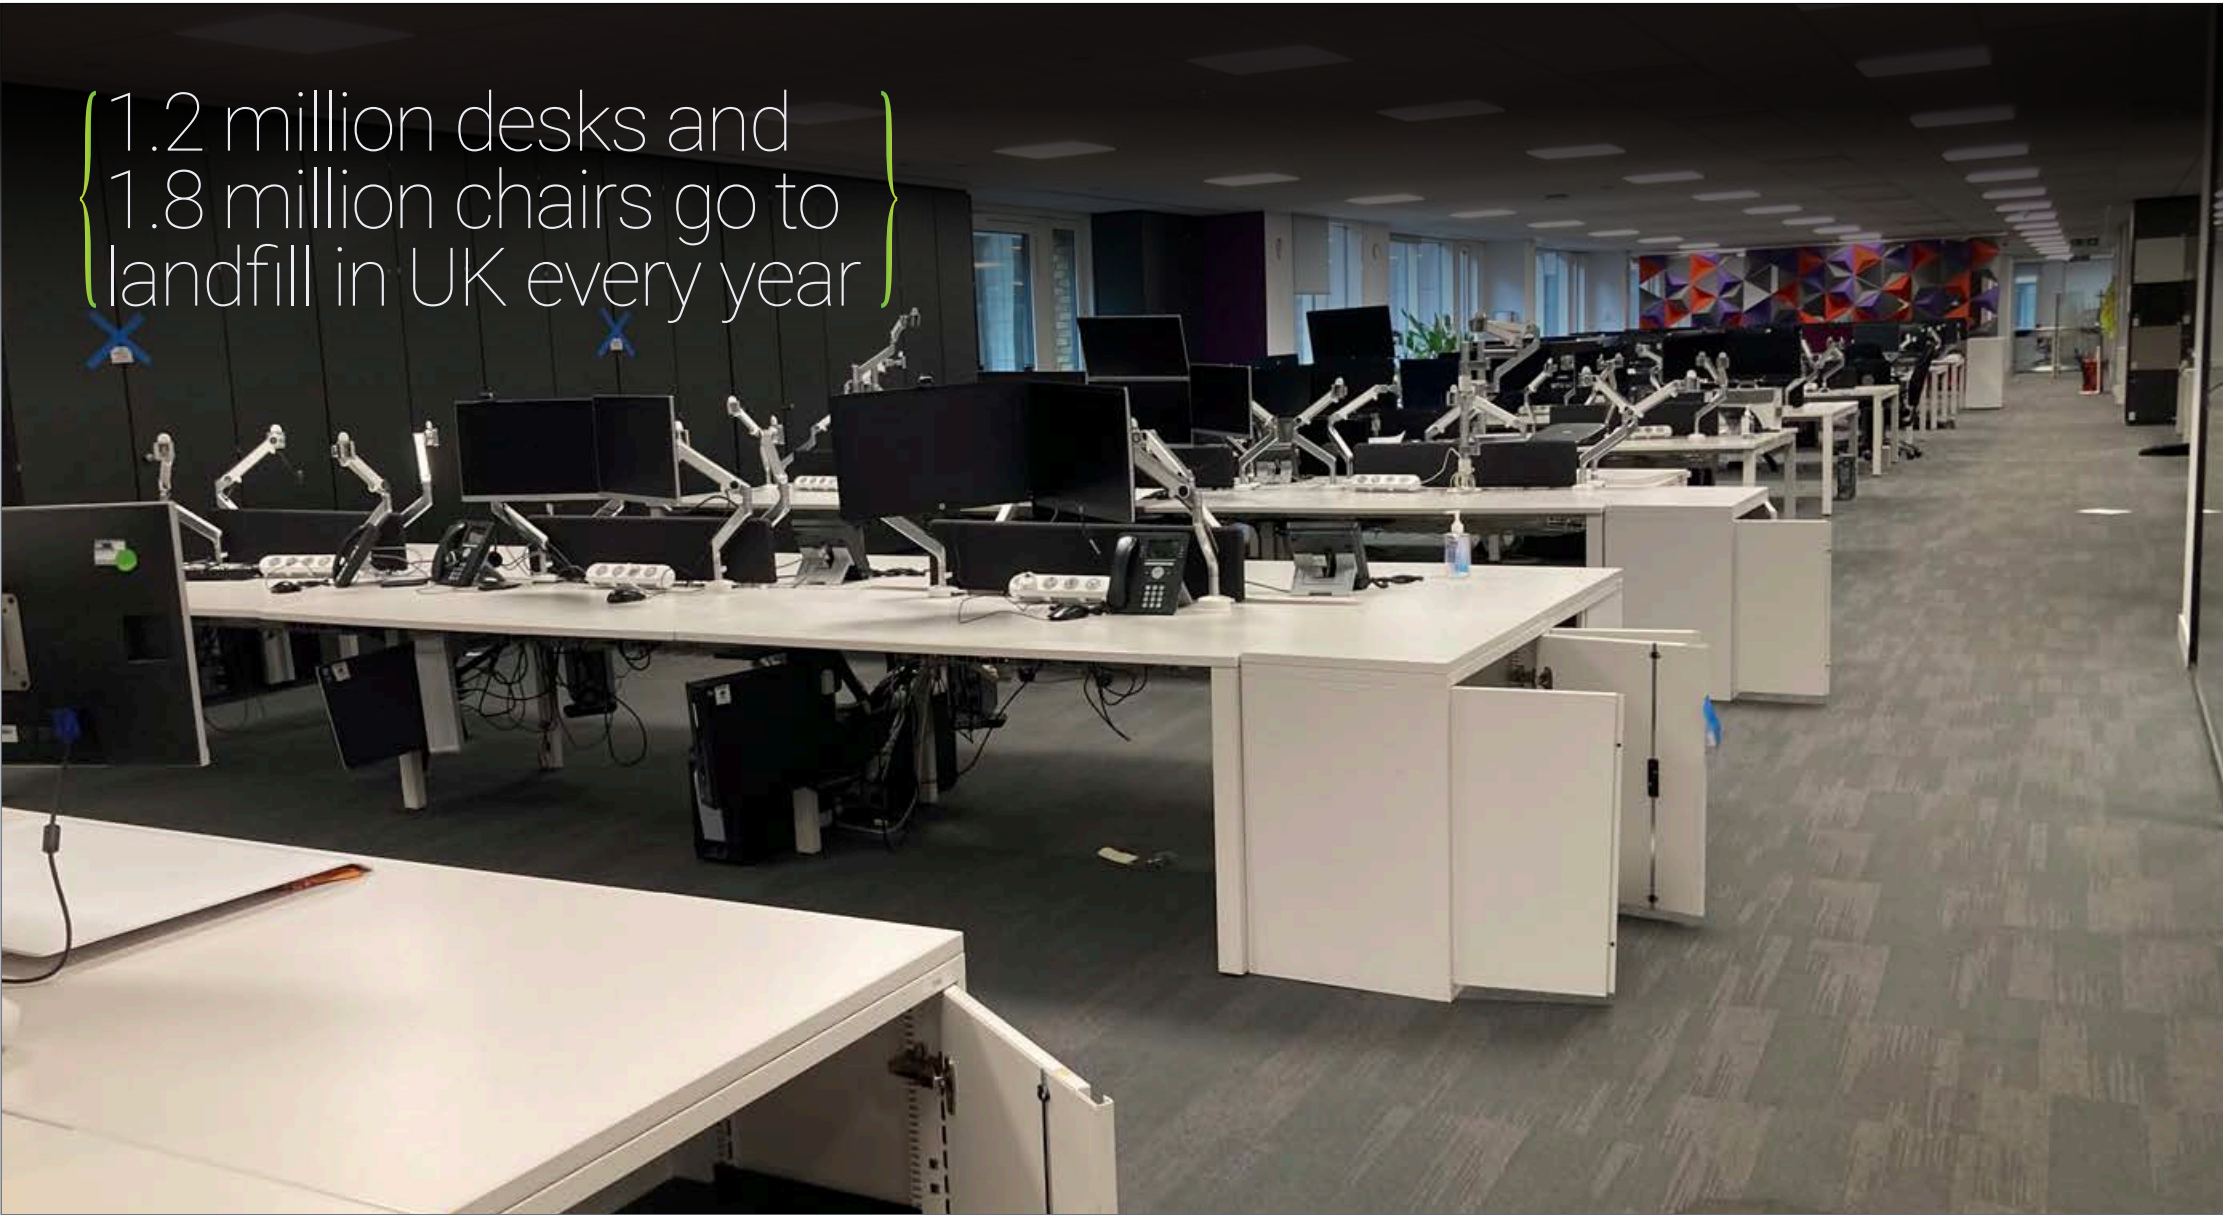

Some control ie: emissions concerning electricity/ power usage in your buildings

A *'Call to Action'* for businesses as 80-95% of Total Carbon Emissions is from products bought, supplied, used and disposed.

Workplace Moves leave good, unwanted legacy furniture and IT equipment behind

Businesses must shift their mindset from a Linear Economy...

...to the Circular Economy

LINEAR ECONOMY

In the past consumer items became readily available with built in obsolescence and a throw away society evolved. The disposal route was landfill, where waste contaminates the environment with pollutants.

CIRCULAR ECONOMY

The Circular Economy evolved to recycle perfectly good items and materials that had reached 'end of use' but not 'end of life'. This slows the rate of harm to our environment giving nature a chance to regenerate.

Our grandparents reused and repaired items because resources were scarce and they couldn't afford new. The circular economy is now borne out of social and environmental conscience.

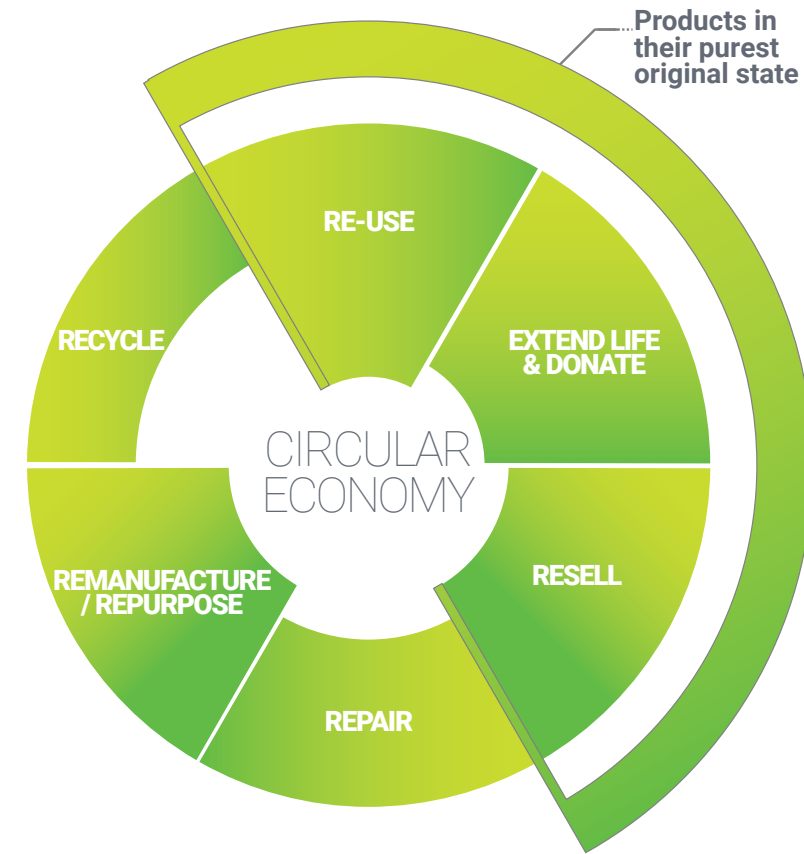

Imagine if you could achieve...

80–100% reuse

Our reuse services have nationwide coverage and expertise enabling legacy furniture to be streamed to a variety of reuse channels during a workplace clearance and move.

The best outcome is to keep items in their original state and extend the lifespan where ever possible.

Renovo's Circular Economy Reuse Services

PlanetMark

More than a Mark

We are partners with Planet Mark and our aim is to understand client move challenges, goals and reuse the highest % of items in their original state.

Options for Reusing Existing Furniture

Resizing, Re-topping, Reupholstery and repurposing...

Resale of premium brands...

Humanscale **Knoll**

The Designers' Role in Furniture Reuse

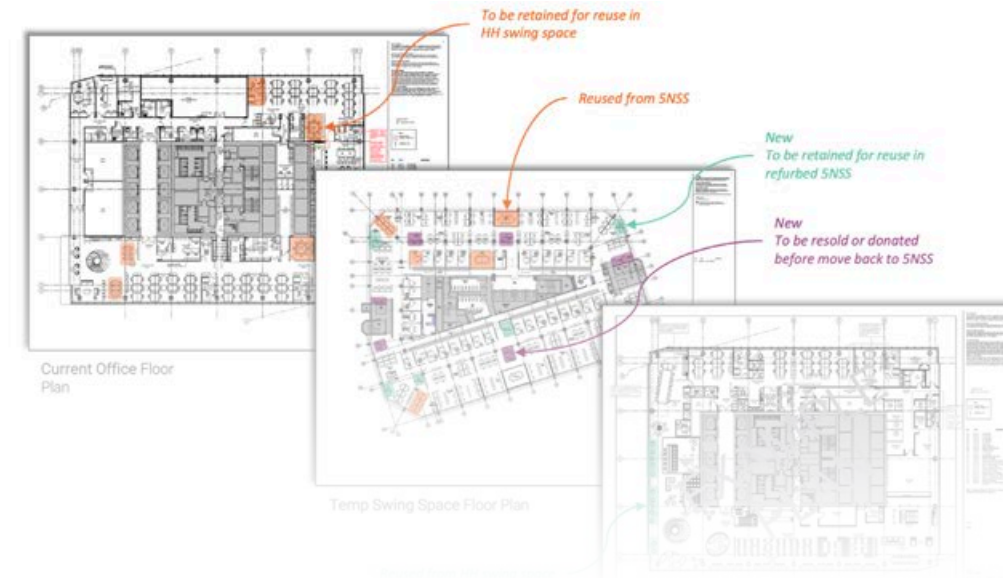

Specification of Circular Design for longevity.
Furniture that can easily be disassembled and
reconfigured for future use.

Establishing the Base Line...

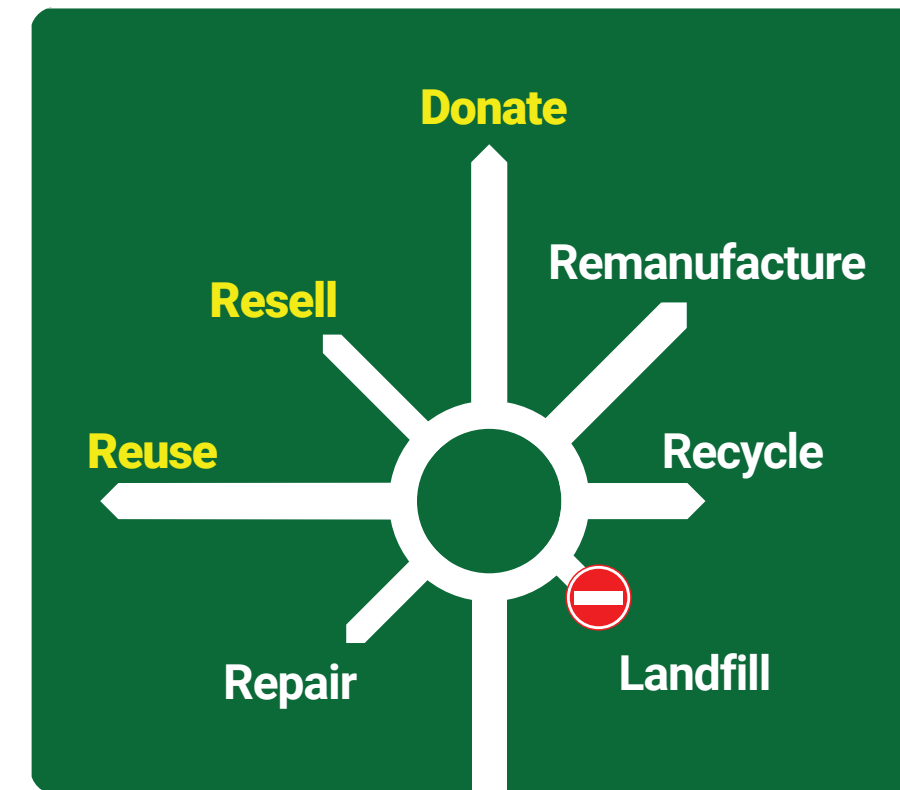

Our furniture specialists conduct an audit, condition and test report of all items. This provides quantitative and qualitative information for the client to make informed reuse decisions.

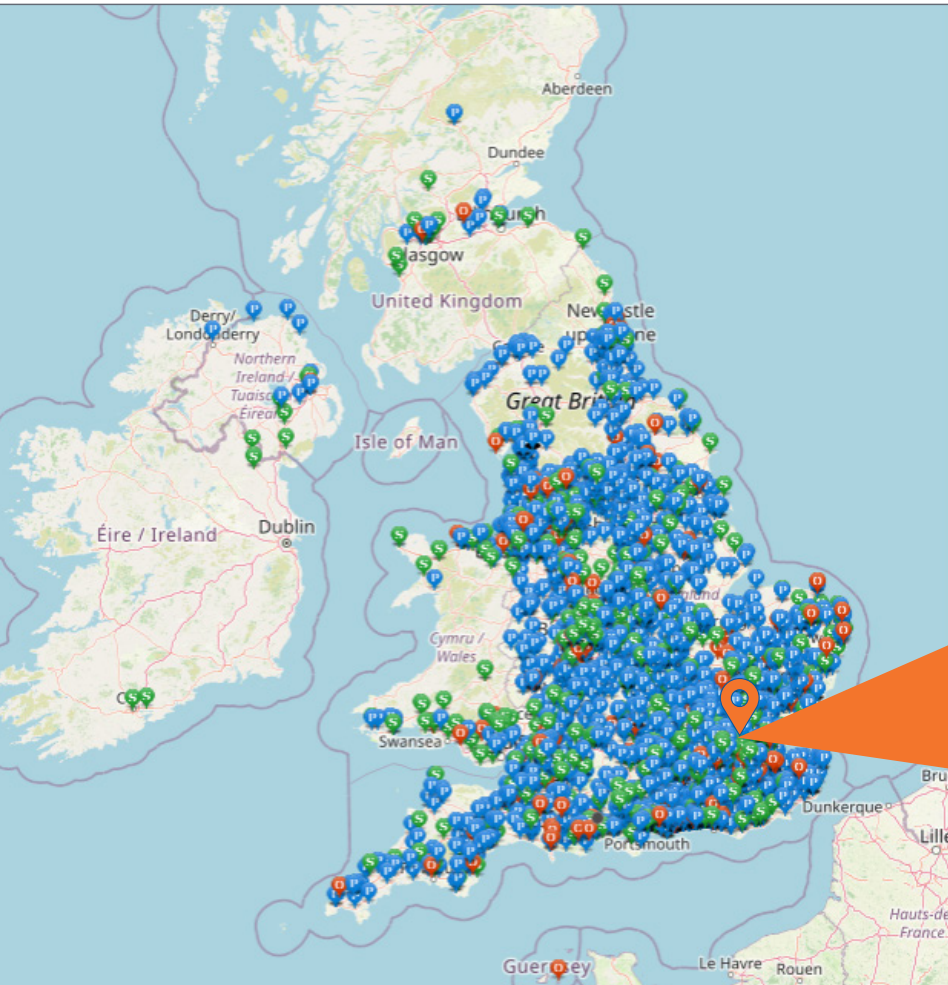

Our Consulting Service

We create a tailored furniture reuse roadmap strategy with every client.

This is possible because of our furniture handling experience and suite of logistics services.

Businesses are valuing the Social Impact of furniture donation to local schools and incumbent charities.

Renovo is a key logistical partner with Business 2 Schools

Unwanted Business Items Donated Locally Across the UK

5,200+

SCHOOLS SIGNED UP ALL OVER THE UK

£60m+

WORTH OF FURNITURE HAS BEEN DONATED

1/2 million tons

FURNITURE SAVED FROM LANDFILL

6 million sqft

FURNITURE HEADING TO SCHOOLS

Full Traceability of Donated Items

Help state school poverty in the local community and see furniture rehomed within days of donation.

Thank you **Danny Rutter** and everyone involved from **Renovo Services LLP** in rehoming all the wonderful furniture. The planters you delivered are being used for well-being and peace gardens in schools, creating beautiful sanctuaries for pupils.

— A single point of contact and logistics team coordinates the clearance and donation of all items.

— Schools sign a waiver and can take bulky volume items clearing everything ready for your dilaps and handover in one smooth process.

ESG & Social Value Creation

The Reuse Strategy eliminates waste to protect the environment and work towards net zero targets.

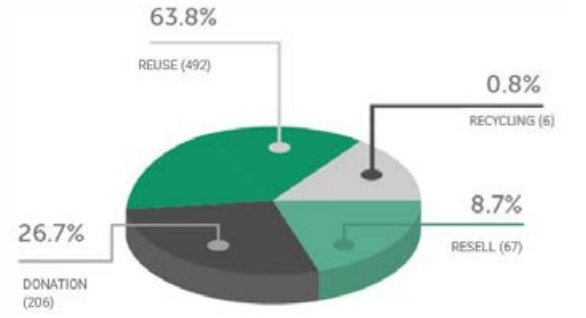

Makes a difference by creating local social value impact.

Is transparent and traceable direct from site to the recipients.

Tailored Carbon Avoidance, Social Impact & ESG Report

Your move and changes are evidenced with tangible metrics to share with stakeholders and investors.

Results

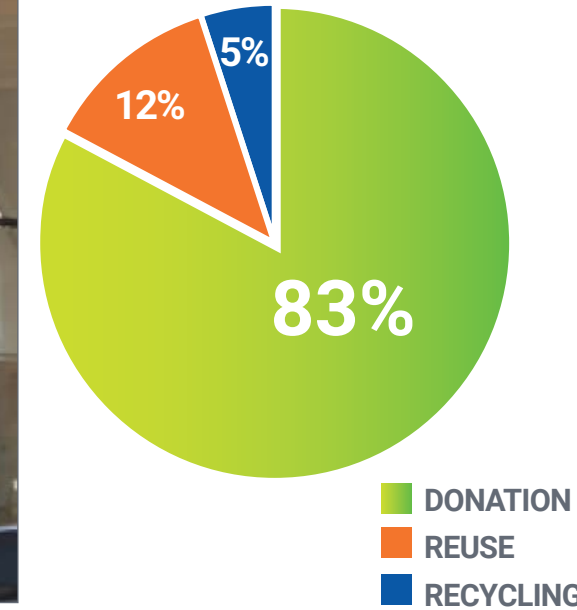

- 100% Furniture Reused & Materials Recycled Preventing Unwanted End Of Use Items Going To Landfill
- 397 items, 5.8 tonnes of legacy furniture (a mix of wood, metal, plastic, and fabric items with zero to landfill waste)
- 8.18 tonnes CO2e saved
- Net CO2e Carbon Saving of 8.7 Tonnes
- Donations 102, 297 items, 26%
- 8.18 tonnes CO2e avoided through your furniture reuse, donation and recycling or heating...
- 4 Standard 3-bedroom homes for a year

Case study:

WILLIAM BLAIR INVESTMENT BANKING

95% Reuse Achieved

Look at the Story:

- Recycling is now only a small %.
- We ensure a high level of furniture is reused / donated in its original state.
- Great news for the recovery of the environment.
- Makes a huge difference to the local community.

- = 60 tonnes furniture now with extended lifespan
- = 90 tonnes CO₂e saved = heating 14 x 3 bedroom homes for a year
- = 24 lorry loads diverted from landfill or recycling
- = 0% to landfill
- = Only 5% to recycling
